

# MAIN ROAD DRAFT TRANSIT CORRIDOR PLAN

## PLAN OVERVIEW INFORMATION SHEET

The State Government has developed a draft Transit Corridor Plan to improve public transport on the Main Road Corridor which links Glenorchy to the Hobart CBD. The community is encouraged to provide comment on the draft Plan and its recommended options.

The draft Transit Corridor Plan will improve the operation of the Corridor for public transport, which will help create more sustainable, accessible, healthy and liveable communities.

The improvements will encourage more people to use public transport for a variety of trip purposes such as travelling to work, shopping, accessing services and for socialising.

Implementing the overall plan will:

- Reduce travel times for both bus and car passengers on the Main Road Corridor;
- Improve bus passenger experience through upgraded bus stops, introduction of real time travel information and creating more frequent and regular bus services;
- Improve walking and cycling access to the Transit Corridor and its shopping centres;
- Provide opportunities for more people to live closer to high quality public transport services and shopping centres where there are jobs, services and shops; and
- Maximise our investment in existing roads and bus services.
